¹ The state sales tax was established in 1967; the tax rate went from 4% to 5% on July 1, 1990; retail food sales were exempt from the sales tax in 1983; state sales tax rate was 4.5% from July 1, 1998 to 2002, and remained at 5.5% after October 1, 2003. In both October 2002 and 2003, the sales tax was expanded to cover selected Service Sector activities. The major expansion occurred in 2003, when repair. The following year some construction labor costs were exempted from the sales tax.

² The monthly totals are not revised, so annual totals may not equal the sum of the months.
